CDC Handwashing Guidelines

Follow these five steps every time:

WET

Wet your hands with clean, running water (warm or cold), and apply soap.

LATHER

Lather your hands by rubbing them together with the soap. Lather the backs of your hands, between your fingers, and under your nails.

SCRUB

Scrub your hands for at least 20 seconds. Need a timer? Hum the "Happy Birthday" song twice.

RINSE

Rinse your hands well under clean, running water.

DRY

Dry your hands using a clean towel or air dry them.

Use of Cloth Face Coverings to Help Slow the Spread of COVID-19

How to Wear Cloth Face Coverings

Cloth face coverings should:

- be made of material that is at least two layers thick
- be secured with ties or ear loops
- not have a face opening
- be able to be handled without touching the face

CDC also advises the use of single-use cloth face coverings to slow the spread of the virus and help people who may have the virus and do not know if they are spreading it to others. Cloth face coverings should be changed when they become damp or dirty. Cloth face coverings should be washed and disinfected after each use. Cloth face coverings should be washed and disinfected after each use. Cloth face coverings should be washed and disinfected after each use.

Should cloth face coverings be washed or otherwise cleaned regularly? How often?

Yes, they should be washed and disinfected after each use.

How does one safely clean/disinfect a cloth face covering?

A washing machine should be used in properly venting a cloth face covering.

How does one safely remove a used cloth face covering?

Individuals should be careful not to touch their eyes, nose, and mouth when removing their cloth face covering and wash hands immediately after removing.
